Skills

LANGUAGES: JavaScript, TypeScript.

FRONTEND TECHNOLOGIES: React.js, Next.js, Material UI, Redux, Redux Toolkit, Axios, RESTful APIs, Context API, HTML, CSS, Tailwind, SCSS, AG-grid, GSAP, Framer Motion, Shadcn.

TOOLS: Git, Jira, Figma, Babel, Webpack, Turbopack, Vite, Chrome dev tools, Postman, Cursor AI.

Work Experience

Foxxmala | Front-end developer |

November'24 - Present | Gurgaon, IN

- Developed **pixel-perfect, responsive** web pages and **reusable generic components** from Figma designs, **enhancing UI/UX** quality and accelerating the team's development speed by enabling code reusability.
- Collaborated closely with the backend team to integrate internal **REST APIs** and **third-party** services like **Razorpay**, improving system reliability and **reducing API response time by 20%**.
- Participated in an **Agile development** environment using **Jira** for sprint planning and GitHub for version control, which **improved task tracking efficiency** and **reduced development cycle time**.
- **Tech Stack:** React.js, Redux, Axios, SCSS, Context APIs, Material UI other npm packages.

Projects

MorphoMind (Multi-Model Application) | [Live](#) | [Github](#)

Jun 25

- **Features:** A multi-modal AI website that allows users to generate text, images, and videos from prompts using advanced generative models, providing a seamless creative experience.
- **Tech Stack:** Next.js, Tailwind CSS, and integrated with AI APIs like Gemini and Hugging Face (for text-to-video) and custom backend services.

EzzyShop (Shopping Application) | [Live](#) | [Github](#)

Nov'24

- **Features:** Designed interactive elements facilitating direct purchases through streamlined cart management processes. Achieved over 200 successful test transactions utilizing dummy payments within two weeks of implementation. You also see the details of products by clicking on the image.
- **Tech Stack:** Next.js, TypeScript, TailwindCSS, CSS3, Firebase, GSAP, Amazon Buddy, etc.,

Chattify(Chatting Application) | [Live](#) | [Github](#)

Sep'24

- **Features:** Engineered seamless login functionality with email/password credentials for over 2,500 users. Integrated friend addition and messaging capabilities that fostered real-time communication among peers within the app.
- **Tech Stack:** Next.js, TypeScript, TailwindCSS, CSS3, Firebase, GSAP, etc

PixelMind (Bg Remover Application) | [Live](#) | [Github](#)

Jan'25

- **Features:** An AI-based background remover site. You remove the background using a URL and select an image from your device.
- **Tech Stack:** Next.js, Tailwind CSS, Framer Motion, and Remove BG API.

Awards and Achievements

- In Foxxmala, Recognized as one of the best contributors at **Foxxmala** for **delivering impactful frontend solutions** using **React, Next.js**, and modern **UI frameworks**
- **Published Technical Articles** on Medium Related to web development. [Medium](#)

Education

Manipal University Jaipur (MUJ)

2022 - 2025

- BCA (Bachelor of Computer Applications) | CGPA: 7.83

Jaipur, India
